Swim Test Requirements for Sailing Camp

*On the first day, all youth classes require sailors to participate in a swim check and a capsizing drill. Instructors oversee and explain both of these drills beforehand to the students. The swim check consists of participants swimming a minimum of 20 feet without a life-jacket, briefly treading water, and then putting on their life-jacket in the water. Students who are unable or unwilling to participate in either of these drills cannot join their class on the water until they complete the requirements. Please ensure that your child is comfortable completing a swim check before registering for a course since SSP cannot refund the tuition once a course begins. *goggles may be worn**

Participants will learn the basics of sailing as a team on a keelboat, and then set off on a new adventure each day. No prior sailing experience is necessary for Cruising Camp.
